Grand President James F. Robeson, Cincinnati '59, lives with his wife, Teddi, in Oxford, Ohio, where he was Dean of the School of Business Administration at Miami of Ohio University. Before being elected Grand President at the 2003 Grand Chapter Conclave, Brother Robeson served as the Grand Treasurer on the National Board of Directors for six years.

**In matters of style,
swim with the
current; in matters
of principle, stand
like a rock.**

—Thomas Jefferson

Benchmarking the 2nd Century Strategic Plan

Dear Brothers and Friends of Sigma Phi Epsilon:

At the end of January, 2004, the National Board of Directors met in Oxford, Ohio, and evaluated the progress on the Fraternity's Strategic Plan. This was an unusual meeting in several respects. Perhaps most valuable was eliminating the regular orders of business and spending a day in retreat, evaluating benchmarks in the years leading up to 2011 to ensure success in meeting the goals.

As you will see on page 11, the national grade point average for SigEp is getting closer to a 3.0. Ten more chapters qualified for the Phi Beta Kappa Wheelhouse in the last year. Housing, volunteers, and growth will be a focus in upcoming issues of *The Journal* to show how the Fraternity is reaching those goals. We have never seen such clear alignment with progress in these important areas.

One tenet of the Strategic Plan calls for SigEp to be so good that other fraternities strive to emulate us. Four fraternities, Beta Theta Pi, Phi Delta Theta, Sigma Chi, and Phi Kappa Tau, were all founded in Oxford. Beta and Phi Delta Headquarters are also in Oxford. We met with both and enjoyed open and frank discussions of ways to collaborate in advancing the American college fraternity movement.

Leadership programs reaching out

Undergraduate leaders participated in the Carlson Leadership Academies in February. Volunteers reported the best volunteer programming ever, while more than 2,000 undergraduates focused on how to work as teams to set and reach common goals. More than 100 volunteer faculty helped prepare our young leaders and local volunteers for the challenges they face. This year, the focus was on the executive committee of each chapter and how this group of officers works together as a team to achieve consistent excellence over time.

New Member Camps are currently underway in select locations across the country. Believing the new member has a world of opportunity with Sigma Phi Epsilon, the New Member Camp helps stress the importance of the Balanced Man Ideal of developing a Sound

Mind in a Sound Body. These values help the young man make the most of his college years in the fraternity experience.

This summer's Frank J. Ruck Leadership Institute will be held on the campus of The College of William and Mary in Williamsburg, Virginia, birthplace of the American Greek-letter society with Phi Beta Kappa in 1776. The Ruck Leadership Institute will expose 125 select undergraduate leaders to four high impact days of high level leadership training with a faculty that includes experts from the Pentagon, corporate executives, and higher education. The participants will return to their campuses next fall ready to impart their knowledge to the masses.

The *Quest to Greece* will take our best and brightest undergraduates with university faculty professors in Greek history and send them for a brief summer study abroad program at the birthplace of Western Civilization—Greece. Here they spend two weeks learning about the roots of the Balanced Man Ideal, an experience that will change their lives.

Your part as an alumnus

None of this would be possible without the generosity of donors to the Sigma Phi Epsilon Educational Foundation. In this issue, we recognize their contribution to the work of the Fraternity. Without them, SigEp would not be able to impact undergraduate lives in the same way. Thank you.

As you can see, we have done a lot since the start of the new year, and have a lot more coming up. Read on, and see how Sigma Phi Epsilon is working to achieve consistent excellence over time.

Fraternally,

James F. Robeson
Grand President

ON THE COVER: J. J. Kasper, Virginia '04, is living on The Lawn, the University of Virginia's residential college. The residential college is Thomas Jefferson's vision of students living and learning with their professors. This idea is the foundation for Sigma Phi Epsilon's Residential Learning Community.

COMMENTARY FROM AROUND THE COUNTRY

LETTERS TO THE EDITOR

Hall of Famer a SigEp

The recent article in the Winter issue of *The Journal*, "SigEps in the Arts and Entertainment," missed one very significant person: Brother **Felix A. Cavaliere, Syracuse '64**. He is an inductee into the Rock 'n Roll Hall of Fame, was the founder, lead singer, and organist for the 60s and 70s rock group, The (Young) Rascals. He had three number one hits on the pop charts with "Good Lovin" in 1966, "Groovin" in 1967, and "People Got To Be Free" in 1968. Brother Cavaliere can still be heard today in the TV commercial for a prescription drug in which Dorothy Hamill skates around while he sings "It's A Beautiful Morning." He is still producing music out of Nashville and is still performing live. We from Syracuse remember him well.

Douglas Martin, Syracuse '75

Closing the Red Door

I read with great interest and despair the article entitled, "Closing the Red Door." The "good time" feeling (of reading the rest of *The Journal*) faded and the smiles stopped. In its place, there remained the glaring reality and true circumstance of my particular SigEp chapter. Like those described in the article, my chapter and all its history has been closed. It no longer exists and hasn't for many years. California Lambda at Santa Clara University will win no more awards from the national Headquarters. It will no longer be recognized for good deeds or fine accomplishments. It is rarely ever referenced or mentioned in the fine and varied pages of *The Journal*. There is no reason to do so, sadly. It's gone.

The reality of my chapter's closure does not make me any less supportive of "all things" SigEp, nor does it necessarily make me bitter or angry. More "lost" than anything. I am a regular monthly financial supporter of Sigma Phi Epsilon, have been for years, and will be for years to come. Whether or not my chapter is ever again

mentioned in the pages of *The Journal*, I will support the goals, ideals, and aspirations of SigEp.

All brothers of SigEp, whether currently experiencing the wonder of living behind the Red Door while now in school, or a longtime alumni member must recognize that it is the duty and responsibility of each of us to conduct ourselves in a positive and productive fashion. The National Headquarters calls it the "Balanced Man" (a phrase which did not exist when I was in school, but a wonderfully accurate description of the ideal SigEp nonetheless). I call it one who always chooses to "do the right thing." If each of us doesn't do what is correct and what is in keeping with the ideals, goals, and aspirations of SigEp, then more brothers will end up like me...a man who loves his Fraternity, cherishes the memories of years of devotion to a common ideal and energy, but also a man who no longer has a direct "pipeline" to his chapter and is left with little more than quarterly editions of *The Journal* which has simply nothing to say about a chapter, like mine, that ceased to exist years ago.

It is a lonely and somber feeling, to be sure, brothers and SigEp supporters. Let my circumstance and position be a constant and concrete reminder that all SigEp men must always do the right thing and always be the right person, for himself, for his brothers, and for the alumni brothers before him. Remember, brothers, "do the right thing," and for it you will be the Balanced Man.

P. Gregory Frey, Santa Clara '83

Perhaps it has been a regular feature in past issues which I've just overlooked, but I note with approval the "Closing the Red Door" article in the Winter, 2003 *Journal*, which details the painful process of closing four long-established chapters for failure to uphold the ideals of our brotherhood.

It's easy (and satisfying) enough to crow over the real successes of our

chapters and brothers, but it is a true testament to those ideals that Headquarters would not only make the difficult decisions to close the errant chapters, but also devote the time and space in *The Journal* to let the brotherhood share in the details of that process. I am saddened that such action was necessary, of course, and my heart goes out to all the brothers who were directly affected, but it is only by such measures that our brotherhood's commitment to our ideals can be maintained. Kudos to *The Journal* for the courage to look unflinchingly at our failures as well as our successes.

Steven G. Tyler, Johns Hopkins '69

...Of Ohio, Why?

Another beautiful issue, but we folks in the Midwest are always sorry to see the great Miami University, founded in 1809, given short shrift each time when (as on page four) the name is contaminated by the superfluous (ugh) "OF OHIO." As one who assisted in the installations of Ohio Eta and Ohio Theta, this son of Ohio Gamma (1949) wants to announce that Miami U. predates probably every college in Florida and, especially the UNIVERSITY OF MIAMI (by 116 years)! Nevertheless we rejoice in the news about Ohio Eta.

P.S. Our three children, and one grandchild, so far, have attended MIAMI UNIVERSITY.

Robert K. Johnson, Ohio State '49

Editor: When schools are referenced in The Journal, the words college and university are usually dropped. For schools like Miami University and the University of Miami a distinction is made by putting the state in parenthesis.

Corrections

It appears The Journal miscounted in the Winter issue when it ranked chapters by the number of Regional Directors coming from its ranks.

- *Memphis was listed as producing two; it should have been three.*
- *Stetson was listed as producing two; it should have been three.*

Red Door Notes

CHAPTER HOUSE PROFILES

The tradition of the red door on Sigma Phi Epsilon chapter houses began on the campus of Syracuse University, New York Alpha in 1928. Today, nearly every Sigma Phi Epsilon chapter home has a red door to welcome SigEp brothers. The original house and red door is pictured to the right. This building is now the International Students Center, and Sigma Phi Epsilon has another magnificent home for its red door.

Kansas Gamma—Kansas

- This chapter house was built in 1947 and home to nearly 80 Brothers.
- It was destroyed by a fire in 1987, and the alumni raised the funds to rebuild the facility.
- The Alumni & Volunteer Corporation acquired the surrounding land and are preparing to add another wing to the house.

California Gamma—California-Santa Barbara

- Built in 1965, the chapter house sleeps 40, and the tree located in the front yard is one of the oldest in the community of Isla Vista.
- As part of a recent renovation, a new kitchen serves meals to the brothers, and part of the living space was converted into a library. In addition there is a courtyard and a multi-purpose room.

Massachusetts Delta—MIT

- Located blocks from Fenway Park in Boston, this brown-stone is home to 30 men. There is a roof deck overlooking the Charles River.
- This chapter house was the pride and joy of long time District Governor **Trueman L. Sanderson, WPI '31**. He led the drive to acquire this property and other outstanding ones in Massachusetts.
- The Alumni & Volunteer Corporation owns a second building across the street. This property sleeps 35 and both houses have five floors including the basement.

Arkansas Zeta—Central Arkansas

- This chapter house was built in 1989 and was the first fraternity house on campus.
- In the summer of 2003 the Alumni & Volunteer Corporation renovated the interior of the facility, including wireless Internet access and an office for the Faculty Fellow.
- With its immaculate interior, Arkansas Zeta won the Chapter Home of the Year Award at the Houston Carlson Leadership Academy.

Yale kicker scores All-Ivy honors

Three Brothers share Bulldawg's Outback Bowl Championship

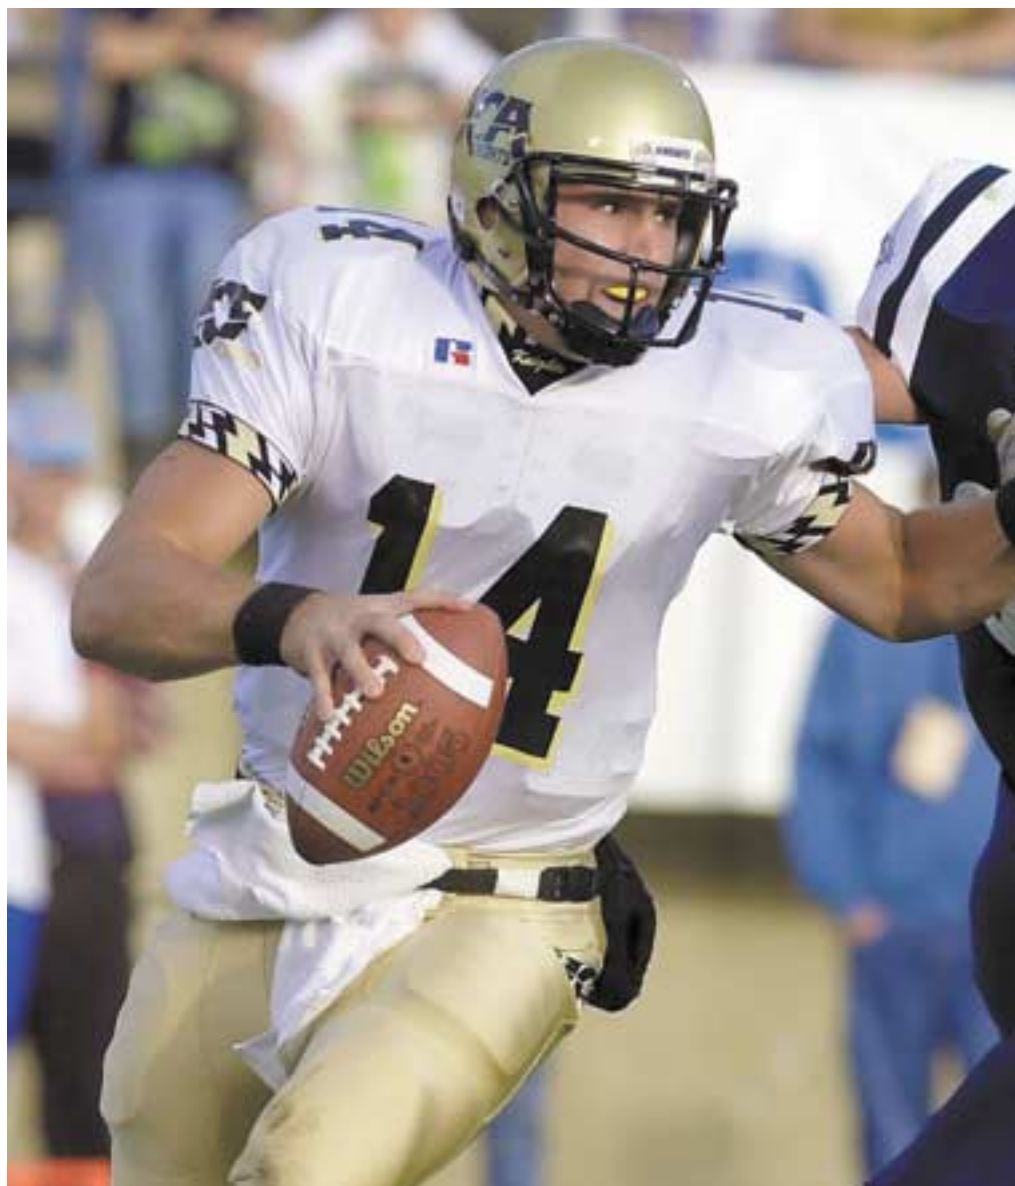

BY JAY LANGHAMMER

College Football

Earning All-Ivy League second team honors for **Yale** was kicker John T. Troost, '05, who led the squad with 84 points. John connected on 15 of 19 field goal attempts and added 39 extra points. Seeing action in five contests was teammate quarterback Todd C. Feiereisen, '06, and Theodore J. Stem, '05, was a Bulldogs tight end. Handling punting duties for the 11-2 **TCU** Fort Worth Bowl squad was John M. Braziel, '04, who had 70 punts for a 39.0 average. Starting at center for the third year was Joshua A. Schneyderov, '03, of **Cincinnati**. Three players for the Outback Bowl champion **Georgia** Bulldogs was long snapper James C. "Jake" Carter, III, '03, safety Ryan Sewell, '06, and receiver Evan J. Wells, '04.

Two SigEps were key regulars for the 8-4 **Valparaiso** squad. Safety Bradley S. Smeja, '06, was second with 103 tackles and recovered two fumbles. Tight end Thomas M. Schmidt, '05, caught eight passes for 111 yards and three touchdowns. Starting every game at fullback for **East Tennessee State** was Robert "Nick" Spearman, '04, who caught 15 passes for 111 yards and excelled as a blocker. Teammate Jeffrey K. Pierce, '04, started five games at offensive tackle.

Playing on defense for **Utah State** were rover Nathan J. Putnam, '05 (eight tackles against Utah, seven versus Nebraska), defensive back Bryan T. Jackson, '04, and tackle Jared S. Westbrook, '06. Holding for placements by the **Memphis** team was Ryan M. Ivey, '04, and teammate James W. Corder, '06, was one of the squad's biggest linemen (6'7", 305 lbs.). Limited to just three games due to injuries was **Indiana State** defensive end Ryan B. Holley, '04. Other

Patrick Means, Ole Miss '06

NCAA Division I-A players included **Florida** wide receiver Kyle S. Morgan, '05, **UCLA** linebacker Shane M. Gates, '06, **Northwestern** tight end Nicholas

H. Tosi, '05, and **Mississippi** kickers W. Patrick Means, '06, and Ian S. Turner, '07. Seeing some action for **South Carolina** was Robert "Bobby" Scott, '05.

Setting 10 **Missouri-Rolla** records was quarterback Evan L. Gray, '05, who completed 191 of 348 for 2,014 yards and 20 touchdowns. Teammates on the MIAA Academic Honor Roll were kicker

"A sound mind in a sound body, is a short, but full description of a happy state in this World: he that has these two, has little more to wish for."

— John Locke

Nathan J. Putnam, Utah State '05

Marc A. Armbruster, '06; defensive back Jeremy S. Dotson, '06; and defensive tackle Robert A. Rutherford, '06.

Nine **Truman State** players were led by All-MIAA second team offensive tackle Eric C. Stewart, '05, who was also on the MIAA Academic Honor Roll. Quarterback Jacob M. Czeschin, '04, who was on the MIAA Honor Roll, hit 149 of 284 for 1,659 yards and eight scores. Gaining All-

John T. Troost, Yale '05

Todd C. Feiereisen, Yale '06

Ryan Sewell, Georgia '06

Bryan T. Jackson, Utah State '04

MIAA honorable mention and MIAA Honor Roll selection was defensive tackle Ted J. Guisinger, '05, who posted 40 tackles. Honor Roll member Anthony J. "AJ" Weber, '04, caught 21 passes for 207 yards at tight end. Other players included MIAA Honor Roll defensive end Sean P. Morris, '04; defensive tackle Daniel J.

Bredenkoetter, '03 (19 tackles); running back James A. "AJ" Eads, '04 (42 attempts for 171 yards); and defensive back Austin J. Hills, '05.

Four defensive regulars were key players for **Moravian**. Named to the All-MAC second team was lineman Kevin McLaughlin, '05, who had 39 tackles.

James C. "Jake" Carter, III, Georgia '03

Linebacker Stephen J. Maslanek, '04, was in on 47 stops and was on the All-MAC academic team, along with quarterback Richard B. Muschlitz, '05. Also starting were linemen Shawn M. Nelson, '05, and Bryan D. Kohlbecker, '06. Seeing action for **Westminster** were defensive end Adam D. Hadvavny, '05, and wide receiver Justin P. Egley, '06.

Named All-ACFC and ACFC Special Teams Player of the Year for 7-2 **Salisbury** was John R. Nistler, '05, who had 58 punts for a 39.5 average. Teammates seeing action were center Paul A. Spinelli, '05; defensive lineman David L. Lathroum, Jr., '05; offensive lineman Sean M. Tucker, '06; and wide receiver Joseph W. Hinz, '04. Splitting time at

John T. Richardson,
East Carolina '03

quarterback for **Baker** was Martin B. Updike, '04, who completed 59 of 122 for 554 yards and three TDs.

Denison linebacker Patrick C. Rule, '04, was in on 40 tackles, including a team high six sacks.

Receiving All-RMAC

honorable mention for **Colorado School of Mines** was kicker Scott F. Hahn, '05, who scored 58 points. Earning All-MSC second team honors for the 9-3 **Lambuth** NAIA playoff squad was kicker Evan D. Granier, '06. He was third with 59 points; tied the school record for field goals in a season (11); and set a record for most kicking points in a game (15). Also playing was teammate Brandon L. McWhorter, '06. Contributing at **Huntingdon** were wide receiver Patrick W. Dean, '07; back J. Trey Howard, '07; linebacker M. Caleb Jordan, '06; and defensive lineman Michael C. McDermott, '06.

More than 60 SigEps were members of the **W.P.I.** squad. Co-captain/running back Preston J. Roberts, '04, closed his career with over 2,000 rushing yards, and wide receiver Matthew Boutin, '06, led with 35 receptions for 512 yards. Sharing

quarterback duties were Ryan P. Jennette, '05, and Adam S. Ralston, '04. Running back Brian Farragher, '06, led the FCC with 15 punt returns for a 12.3 average.

Daniel E. DeBiaso, '04, broke up eight passes, returned nine kickoffs for a 29.0 average, and had 18 punt returns for a 10.3 average. Second in tackles with 69 was linebacker Gilead R. Ziemba, '05, and back Vinny J. Scotto, '05, had 51 stops. Other standouts were co-captain/linebacker Michael P. Torilli, '04; co-captain/back Joel Chery, '04; linebacker Joe M. Fontecchio, '05; and back Bryan L. Douglass, '06.

Offensive lineman Jacob G. Kapitan, '04, and linebacker Eric J. Hensel, '04, were co-captains for **Tri-State**. Second with 69 tackles was linebacker Joshua C. Andrews, '05, while lineman Joe M. Martin, '05, recorded 22 stops. Other

Tri-State players included wide receiver Arturo A. Cobarrubias, '06; offensive lineman Joshua M. Felver, '05; defensive back

Jason A. Shue, '04;

and wide receivers Scott M. Coalter,

'04, and Blair A.

Donat, '05. Members of

the **McDaniel** squad were

lineman Andrew R. Smith, '05,

and Dennis B. Wilderson, Jr., '05,

plus defensive back Justin T. Gaudenzi, '06.

Leading

Washington State to a 10-3 record and

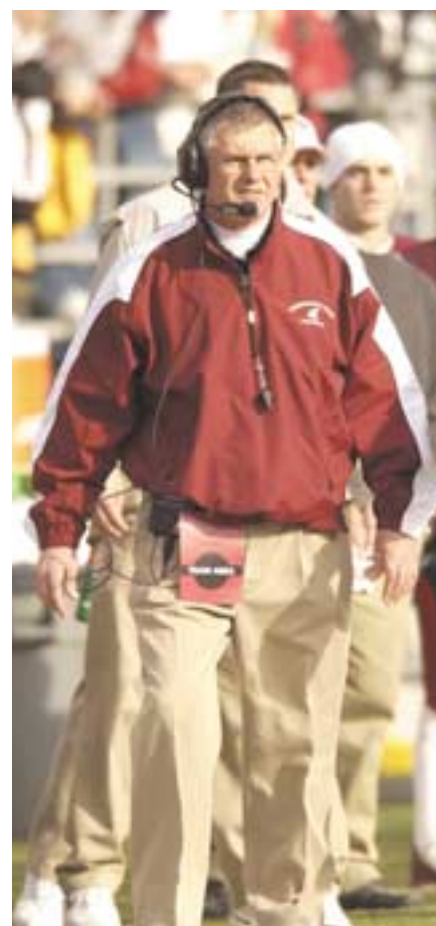

Holiday Bowl victory in his first season as head

coach was William A. Doba, **Ball State**, '62. Jay A.

Locey, **Oregon State**, '77, took his Linfield squad to an

11-1 season and the NCAA Division III quarterfinals

again. Harold E. "Bud" Elliott, **Baker**, '53, saw his

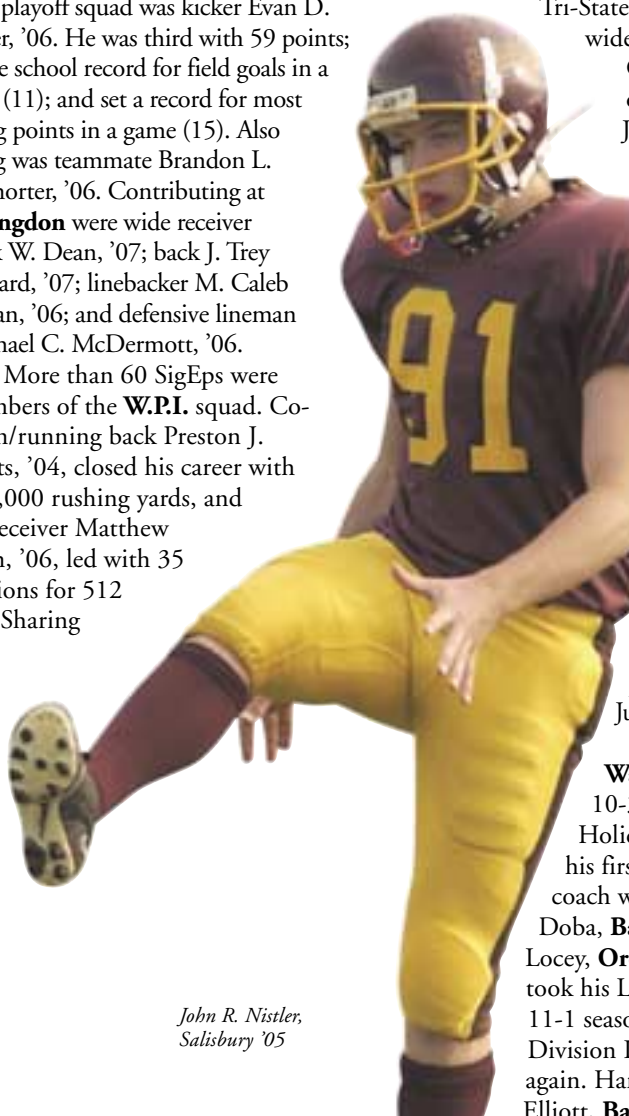

Washington State head coach William A. Doba,
Ball State, '62

Eastern New Mexico squad go 6-5, running his 36-year head coaching mark to 199-174-9. Other head coaches were William A. Zwaan, **Delaware**, '76, at Widener; Malen Luke, **Westminster**, '76, who completed his 10th year at Clarion; and Nicholas H. Fletcher, **Johns Hopkins**, '76, at **Denison**.

Soccer

Chosen as Atlantic Sun Conference Defensive Player of the Year was goalie Ryan A. McIntosh, '05, who led **Central Florida** to a 12-6-3 season and NCAA Division playoff berth. He was named to the A-Sun first team and A-Sun Tournament first team. Over 21 games, he allowed just 22 goals. Ryan also posted 85 saves and eight shutouts. Teammate Jaime Planells, '06, started 10 games at midfield.

Leading 12-7 **Loyola Marymount** to the NCAA Division I playoffs was goalie Shaun Kalnasy, '04, who earned All-WCC Academic selection and All-WCC honorable mention. He started 15

John R. Nistler,
Salisbury '05

DAN NOLAN, MONMOUTH COLLEGE

Mark R. Allen, Monmouth '04

games, posted 82 saves, gave up just 14 goals, and had six shutouts. Starting three games in goal for the 15-4-3 **St. Louis U.** NCAA playoff team was Jeffrey T. Sackman, '04. Scoring four points in 12 games for **Appalachian State** was forward Matthew D. Breeding, '06.

The 20-1 **Truman State** Division II playoff team featured six SigEps. Scoring seven points each were midfielders Lucas J. Bolar, '05, and Paul N. Link, '06. Also seeing action in 20 games was midfielder Geoff K. Brengle, '06. Contributing to the 9-7 **Northwood** squad were goalie Michael J. Null, '04, defenseman Robert J. Lynch, Jr., '06, and forwards Michael J. Genevich, '04, and James I. Mitchell, '04. Scoring nine goals for the **Muhlenberg** Division III playoff team was forward Nick R. Richardson, '05.

Jeffrey T. Sackman,
St. Louis U. '04

Co-captain/midfielder Mark D. Bahr, '04, had 13 starts for **Clarkson** and was joined by defenseman Jason K. Mayerhofer, '05, and midfielder Asun Sathyanathan, '04. The **Kentucky Wesleyan** squad featured seven SigEps, including Henry M. Griffin, IV, '03, and Derrick A. Stratton, '07. Other players included goalie Brandon S. Aylward, '05, of **Valparaiso**; midfielder Zachary J.

Earning All-NCAC honorable mention for the 18-3 **Denison** team was goalie Benjamin L. Stevens, '05, who started 19 contests. He gave up just 19 goals, made 76 saves and posted six shutouts. Teammate Matthew P. Fuller, '06, scored 13 points and David J. Smith-Watts, '05, played in 17 games. Midfielder Dave R. Saeltzer, '05, started 16 games for the 12-7 **Baldwin-Wallace** squad. Goalie Nathaniel L. Woods, '07, won All-CCAC honorable mention for **Illinois Tech**. In 10 games, he had 79 saves and three shutouts.

At **Moravian**, defenseman Kenneth G. Macaulay, '04, started every game and forward Ryan Hintenach, '06, played 12 contests. Teammate Ian Andrew Nuno, '06, saw action in goal and was named to the MAC All-Academic Honor Roll. Eight SigEps at **Monmouth** were led by second-leading scorer Mark R. Allen, '04. Other players included defenseman Brian M. Potter, '05; midfielder Jacob E. Emerson, '06; forward Matthew C. Dabbs, '06; and goalies David A. Gray, '04, and Bradley J. Hofmann, '07.

Kimball, '06, of **Colorado Mines**; defenseman Kevin P. Orndorf, '06, of **Davis & Elkins**; and defenseman Robert T. Felzke, '07, of **Baker**.

Cross Country

A leading runner for the **Miami (Florida)** squad was Billy Bludgus, '05, who competed at the Big East 8K meet (28:04) and NCAA South Region 10K meet (34:33). Stephen J. Trudelle, '04, of **San Diego** placed 16th (26:59) at the 8K WCC meet and was the team's top finisher (33:52) at the 10K NCAA West Regional. He also was seventh (26:31.9) at the 8K Santa Clara Invitational.

Joshua T. Moore,
Tampa '04

Seeing action for the **Tennessee-Martin** squad were two SigEps, James R. Clapper, '05, and Philip A. Rhodes, '05. Benjamin R. Gaspar, '04, of **Davidson** ran at the NCAA Southeast Regional 10K (32:50). Also on the squad was teammate Walker F. Saik, '06. Joshua T. Moore, '04, ran in six meets for **Tampa** and placed 11th at the 8K SSC meet (27:53.02). Jason L. Gillespie, '04, was the top runner for **Michigan Tech** and competed at the NCAA Division II Great Lakes Regional 10K (34:05.4).

Winning the **North Dakota** team's Sioux Pride Award was Cameron G. Felton, '06, who ran in all seven fall meets. Jason R. Ream, '04, of **Baldwin-Wallace** placed 33rd (27:39.69) at the OAC 8K meet.

Marcus D. Corvino, '05, of **Westminster** earned All-PAC second honors with a 10th place 8K finish (28:41) at the PAC meet and also competed at the NCAA Division III Mideast Regional. Michael S. Donnelly, '03, of **Baker** finished 35th (28:30) at the 8K HAAC meet and 32nd (28:11) at the NAIA Region V meet. Other competitors during the fall included Scott A. Simpson, '05, of **Columbia**; Alexander F. Kim, '06, of **George Washington**; the **Illinois Tech** trio of Sean A. Huber, '05; Brent J. Lagesse, '04; and Nirmal P. Shah, '06; and Joseph J. Grady, '04, of **Moravian**.

The Lawn—Jefferson's Vision for a Living, Learning Environment

BY E. SCOTT THOMPSON, II,
Southern Mississippi '99

If you told today's college student that they will spend their senior year living in a room a little larger than four office cubicles, with no room for an entertainment center, computer, and furniture, they would most likely rebel. At the very least, they would opt for a spacious suite with high-speed Internet access and a private bath. Unless you were talking to a student attending the University of Virginia and the room in question is located on The Lawn.

UVA, as it is known by its faithful alumni, students, and fans, is located in Charlottesville, Virginia. Its icons are the Rotunda and the academic village, nicknamed The Lawn. It is here Thomas Jefferson erected a monument to the pursuit of knowledge as he saw it—where students and professors live and learn side-by-side. There are two wings, full of rooms for the students, flanking the southern steps of the Rotunda, East and West Lawn. There are five two-story pavilions, where professors live and classes are taught, in each wing.

The resident of 44 East Lawn—**J.J. Kasper, Virginia '04**—has an experience that few students will ever have. Only a couple of doors down in Pavilion Nine, the Dean of the Business School wants to know if there is anyone on the Lawn available to baby-sit his daughter. Not exactly what you might envision for an elite student getting an invaluable interaction with professors. However, it should emphasize the living part of living-learning.

Only the Top 47

Living on The Lawn is a highly sought-after honor at UVA. In the Spring

It's an open-door existence living on the Lawn at UVA. Passers-by can look in and see living spaces, such as J.J. Kasper's, above.

of 2003, over 400 hopefuls applied for one of 47 spots. What does it take to be one of those 47? It requires a high GPA and involvement in both the campus and community. Brother Kasper is from Severna Park, Maryland and has a 3.94, double-majoring in English and Math. He was President of the Virginia Eta Chapter. For the past three years, he has served as a Judiciary Counselor for both the school and the Interfraternity Council. He spent two years in the Fellowship of Christian

Athletes and, for three years, was one of the Mascots for the school.

Kasper noted that his desire to get involved stemmed from older brothers in the chapter, "I remember when our former Chapter President Leondras Webster (**Leondras J. Webster, Virginia '02**) encouraged me to try out for the IFC Judiciary Council. Stevie Kaplan (**Steve A. Kaplan, Virginia '02**) got me involved with the Judiciary Council, and Pat Kelly (**Patrick M. Kelly, Virginia '02**) looked for someone to take over being

the mascot.” Kasper mentioned there was lots of interest in younger brothers who wanted to follow in his footsteps and live on The Lawn.

One thing Kasper stressed was that he was not a “Lawnie.” “Lawnies” are students who yearn to live on The Lawn and proceed to join an organization just

As we talked, there were numerous people walking past his open doors. Every one of them looked in. Some glanced as they walked by, as if to say, “I know what one of those rooms looks like, but I am still going to sneak a peek.” Others paused to take in the sight. They quickly moved on as they did not want to disturb our conversation.

An Experience Few Have

So what does Kasper gain from his one year on The Lawn? His learning reaches beyond the classroom. His neighbors are not only the professors, but also 46 other high achievers. One can only thrive in an environment such as this. He likens part of his experience to living in a fraternity house, which he did during his time as President. “Much like the fraternity house is the center of activity, there is always something to do here on The Lawn. You have to be disciplined to manage your time, or you see everything and get

nothing done.” Three times a semester, the entire Lawn has dinner together. Once it was held in the Rotunda; another time it was a progressive meal in each of the Pavilions—appetizers in Pavilion One, salads in Pavilion Two, etc.

Professors invite the students over to their pavilions for different events. During Halloween, the same dean who needed a last-minute baby sitter had a chili dinner for several of the students. On another occasion, Kasper attended a garden party (each Pavilion has its own unique garden as set forth by Jefferson) hosted by Dr. Larry J. Sabato, a well-known political

MOLLY MORRISON

So, what is a Rotunda, anyway?

When Thomas Jefferson founded the University of Virginia in 1819, he envisioned a place where the student lived and learned alongside the teacher. The Rotunda was built to house the library, and its dome shape is modeled after the Pantheon in Rome and symbolizes the enlightened mind.

analyst seen on CNN and MSNBC. During the course of the evening, Mark Warner, Governor of Virginia, stopped by for a few minutes, mingling with the students and Dr. Sabato. At these events, the discussions can range from academic in nature to purely social.

In addition to the interaction with professors and students, Kasper is a part of the history of the school. On the outside of his closet, there is a simple list of names going back to the 1840s. Those names belong to the former residents of 44 East Lawn. In front of Kasper’s room, on November 12, 1840, law professor John A.G. Davis was shot and killed by a student. This upheaval led to the establishment of the nation’s oldest student-run honor system. Today, every student vows not to lie, cheat, or steal. Personally, Kasper feels the honor system is a bit too reactionary; the only penalty is expulsion from the school. While his view may not be the most popular among his peers, it is only in a place like UVA where students have that kind of discussion.

In the Jeffersonian spirit of living and learning with professors, Sigma Phi

to build their resume and better their odds. While it may be a tough moniker to have, it illustrates that students at UVA want to be a part of Jefferson’s vision. They want to live next to their professors. They want to live on The Lawn and are very envious of those who do.

For his interview with *The Journal*, Kasper opened the double doors of his room to The Lawn. “I like to open the doors; it’s nice to have a breeze in here,” he explained. Part of it was true—he did enjoy a breeze. Part of it was for show—a show to those “Lawnies” wanting to see the inside of these rooms.

MOLLY MORRISON

"My proudest moment as chapter president has been seeing more brothers want to be involved on campus. They are asking me, 'What can I do to live on The Lawn.'"

Epsilon has developed the Residential Learning Community (RLC). While there are no chapter homes with a professor residing in them (as yet) many chapters have an increased level of interaction with a Faculty Fellow. They are members of the faculty intimately involved with a SigEp chapter.

When asked his thoughts on the Sigma Phi Epsilon RLC, Kasper explained, "I can see nothing but positive results in having a Faculty Fellow. It is difficult to find the right professor, and Virginia Eta is trying. We recently held a reception for the faculty on The Lawn. It is a start." Before this year and before Brother Kasper, the chapter would never have hosted a reception on The Lawn. So why does your national Fraternity believe in a partnership with faculty? The belief is simple. Re-read this article and substitute the phrase "on The Lawn" with "in the Sigma Phi Epsilon chapter home."

Residential Learning Communities—A SigEp Approach to Jefferson's Vision

With enrollment at an all-time high on most campuses, the faculty-student interaction is weakened. There are just too many students in a classroom, and relationships with professors must be built outside of class. Sigma Phi Epsilon has created a more defined role for faculty advisors to help foster that interaction—the Faculty Fellow. A Faculty Fellow meets with chapter members on a weekly, sometimes daily basis. Their roles differ from student-to-student and campus-to-campus, but, in general, they mentor and guide undergraduates. Whether they answer questions about the campus or put SigEps in touch with resources to be successful, Faculty Fellows provide a vital link to the school and help enhance a young SigEp's degree. Some attend

chapter meetings and have meals with the chapter. Others invite their colleagues to speak to the chapter.

On some campuses, Faculty Fellows have an office in the chapter house—that is right, an office. Brothers meet with the Faculty Fellow, study, conduct chapter business, and a whole host of other tasks. The results are impressive. Chapters that have a Faculty Fellow show a higher GPA than the rest of the Fraternity—3.098 vs. 2.939. The benefits are not just academic. According to Chapter President **C. Bryan Lassiter, Georgia '04**, "Having Victor Wilson (**Victor K. Wilson, Georgia**) involved has helped our chapter in so many ways. He helps the brothers find themselves. He is a counselor, role model, and friend."

*Dr. Yvonne Gentzler, Faculty
Fellow for the Iowa Beta Chapter
at Iowa State University.*

Phi Beta Kappa Wheelhouse Spring 2003 Record-Setting 41 Chapters in the Wheelhouse

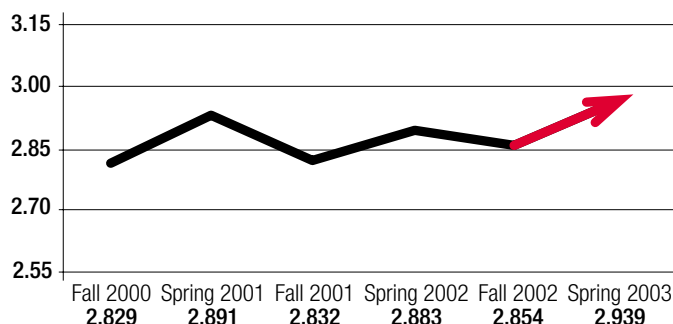

In the last issue of *The Journal*, we reported a Grand Chapter GPA of a 2.939 for 159 chapters reporting and 28 in the Phi Beta Kappa Wheelhouse. Since then the Grand Chapter GPA has held steady at a 2.930 with 214 chapters reporting and a record 41 chapters in the Phi Beta Kappa Wheelhouse. The following chapters with cumulative GPAs of 3.15 or higher are in the Phi Beta Kappa Wheelhouse.

Grand Chapter GPA for 214 chapters reporting: 2.930

SCHOOL	GPA	MANPOWER
1. Stanford	3.63	39
2. Chicago	3.58	15

NBA star shares Balanced Man story at Penn banquet

On November 17, at the Sheraton University City Hotel, the Penn Delta Chapter held its annual Balanced Man Scholarship banquet. Each year SigEp hosts a local celebrity guest speaker. In years past, they have had Ed Rendell, Governor of Pennsylvania, and this year they hosted World B. Free, former 76ers basketball player and NBA Hall of Famer. **Gregory R. Robinson, '05**, contacted the director of public relations for the 76ers and told him about the Balanced Man Scholarship. World's public relations representative contacted Robinson to set up the event. Free spoke about his life growing up in Brooklyn and his 13-year career in the NBA. "When you look at the world today, you say to yourself, where are we going to get a leader? You guys have a lot of things going for you, so it is important to take that a step further," Free said.

World B. Free and Gregory R. Robinson, '05

Phi Beta Kappa — How They Do It Nebraska-Omaha's GPA Explodes

A year ago, the Nebraska Beta Chapter was at a crossroads. After violating risk management policies with an open party and underage drinking, the future of the chapter was in jeopardy. Rather than waiting for sanctions or settling for mediocrity, a group of brothers decided to change the culture in the chapter. After electing a new executive board, the chapter decided to ban all alcohol from the chapter house. This unpopular decision forced several members to leave the

Fraternity. At the same time, the chapter upheld the recruitment standards it often ignored. Recruits needed to have a 3.0 GPA to be eligible for membership. The results are dramatic. In the Fall of 2002, the chapter had a 2.87, and then in the Spring of 2003, the chapter rose into the Phi Beta Kappa Wheelhouse. Today, chapter members continue to emphasize academics over antics. This also marks the first year SigEp won both the Sports and Grades Cup.

"[Sleep is] the golden chain that ties health and our bodies together."

— Thomas Dekker (1572-1632)

Sleep: Vital to a Sound Mind and Sound Body

BY WILL H. STEWART, II,
George Washington '00

Why are we as Americans so sleepy? With longer commutes and work days, study, family, and friends, our precious sleep time is severely diminished. Living in a 24-hour society, we face endless distractions that keep us from getting an ideal seven to nine hours of sleep that experts say we need.

According to a survey by the National Sleep Foundation (NSF) in 2002, one-third of Americans said that fatigue adversely affects their daily productivity at least a few days a month, and one in six reported these symptoms twice a week or more. The 18- to 29-year-olds were the largest age group most likely to report daytime fatigue.

Being sleepy can affect your life adversely. For instance, lack of sleep can

reduce your fitness level, and limit your memory. Fatigue may also slow down your mental processes which can lead to the 10,000 automobile accidents and 1,500 deaths each year as reported by the National Highway Traffic Safety Administration. A more recent study confirmed that lack of sleep actually accelerates the aging process since many of the body's cells, which are produced during deep sleep, are unable to increase production, and protein breakdown is unable to progress. Since proteins are the building blocks of cell growth and repair from damaging factors like stress and ultraviolet rays, deep sleep can really be called "beauty sleep."

Now that you know the downfalls of not getting enough sleep, let's tackle how to ensure you get the maximum zzz's per night.

1. Steer clear of stimulants (i.e., caffeine, alcohol, and nicotine) at least four hours before you go to sleep. If you do decide to drink, have a virgin screwdriver (orange juice) for last call since fructose (the predominant sugar in OJ) can accelerate how fast your body metabolizes alcohol as much as 25 percent.

2. Set up a sleep schedule so you get your body into a routine, preferably retiring before 10 p.m. and waking up at the same time every morning. If you are still awake by 11 p.m., your body will increase the production of melatonin, a hormone that assists our body in sleep regulation that will make you drowsier as the night progresses.

3. Make your bed a sacred space for sleep only.

If you do other activities like paying bills, reading, and watching TV, you may train your body to associate being in bed with staying awake, thus making it harder to fall asleep.

4. Take a brisk walk or do a little yoga before bed.

According to a study done by the University of Arizona, a brisk six-block walk was the right amount of exercise to do in the late afternoon. You can also try to do some easy yoga poses like forward bends, twists, or basic inversions. An easy pose is to lie on your back with your heels facing the ceiling against a wall, eyes closed, and take 10 deep abdominal breaths.

5. Wake up with the sun or use very bright artificial lights in the morning because sunlight assists the body in resetting your internal clock. Researchers at the University of Westminster discovered that the levels of the stress hormone cortisol were higher in 42 volunteers who awoke before the sun was well risen.

If you are having serious problems sleeping, it would be wise to seek the advice of a doctor who specializes in sleep disorders. Such a doctor may be available for consultation at the closest major hospital.

Happy sleeping!

Diligent Pursuit of the Balanced Man Ideal

"The beginning is more than half the whole task."

— Aristotle

A year ago **Charles D. "Chip" Jetton, Appalachian State '04**, set a goal to run a marathon in less than three hours and 10 minutes. That time represents an excellent standard to have for his age group. Like anyone who sets a high goal, Chip established some benchmarks to help him reach it. The first one was to complete a marathon—done. His first race was in January, 2003, in the Charlotte Marathon, where he finished in 3:42:17. He then decided to run again. This time his goal was to finish in three-and-a-half hours. He fell short of that goal in his next race, the Richmond City Marathon held in November. At the end of the race, his time was 3:54:43, but he'll be back. Chip plans to run in the New York City Marathon if his number is selected in the lottery.

So what are some things that Chip learned? "When it comes to overcoming obstacles and perseverance, it is important to set small goals to get you closer to the larger one. For someone who has not run more than a couple of miles, a 10-mile run may seem too lofty," he said. "Increase the distance

Chip Jetton, Appalachian State '04, completed the Richmond Marathon in November.

slowly and allow for rest. Soon you will be running further and requiring less recovery time."

Sound Mind and Sound Body Corner

Now that winter is finally receding, it is time to take your Sound Mind and Sound Body programming outside. Try these 10 outdoor programs to improve the lives of your members.

Sound Body:

1. Host a "Tour de SigEp" and organize regular biking trips.
2. Organize a spring fitness test to include exercise and physicals.
3. Organize a hiking trip at an area state park and learn about survival tactics.
4. Create a SigEp training program with a campus fitness trainer.
5. Sign up for rock climbing classes.

Sound Mind:

1. Visit an outdoor sculpture garden.
2. Attend a religious service other than your own.
3. Select a book-of-the-month and read as a chapter.
4. Participate in a midnight Mars-gazing field trip with a local planetarium or astronomy class.
5. Attend an outdoor jazz concert.

Chip's Training Schedule:

Day	Running	Weightlifting
Monday	Four-five miles	Quadriceps and Hamstrings (light weights)
Tuesday	Five-six miles	Calves (light weights)
Wednesday	Eight-ten miles	None, instead swim 800-1,600 yards
Thursday	Five-six miles	Quadriceps
Friday	Three-four miles	Calves, swim 1,000 yards
Saturday	11-20 miles	None
Sunday	Rest	

Notes: This training schedule is followed for about three months leading up to a marathon. Chip gradually increases the length of the runs, getting up to 20 miles three weeks before a race. He then tapers off the length for the final three weeks, allowing the muscles to recover. For his next marathon, Chip plans to shorten the schedule to less than three months.

"Waste no more time arguing about what a good man should be. Be one." — Marcus Aurelius

Surviving Testicular Cancer—Paul Peterson’s Story

BY E. SCOTT THOMPSON, II,
Southern Mississippi '99

I imagine you are 18-years-old and just graduated from high school. You are set to attend a large university and have the whole world ahead of you. Then you discover a lump, not on your testicles, but on your breast. Pretty odd, right? Your conscience tells you to see a doctor and he schedules a mammogram. Those are for women, right?

Those questions circled in **Paul W. Peterson’s (Minnesota ’03)** head in the summer of 1999, and those events happened to him. The results of the mammogram were just as odd. “Lay off the soda,” his doctor told him. He attributed the lumps to the copious amounts of soda Paul must have been drinking. So under advice from his doctor, Paul cut back on the soda and went on to the University of Minnesota.

Soon after getting to campus he joined the Minnesota Alpha Chapter, and Paul would ride his bicycle from the chapter house to campus. Within the first two weeks he noticed that his right testicle was swollen and felt hard. His first thought was that he had injured it on his daily commute. Another week went by, and again, Paul’s conscience told him to see a doctor. Within the first few moments of examining the area, the doctor felt 95 percent certain that it was testicular cancer.

Cancer Discovered

This time the prognosis was correct. Paul had cancer in his right testicle, and this time the soda had nothing to do with it. The surgery to remove his infected testicle was scheduled for the following Tuesday. Any delays would risk the cancer spreading to the rest of his body.

According to Paul, it didn’t sink in that he had cancer, and fortunately there was not much time for him to come to grips with it. Prior to the surgery he called Recruitment Chairman **Jeffrey M. Wallace, ’01**, and told him that he would have to quit SigEp and leave the university to undergo extensive chemotherapy. This would take up the entire year, and if things went well, he should be back the following fall.

Paul W. Peterson, Minnesota ’03, at the 2003 Grand Chapter Conclave in San Antonio, Texas. He served as a Student Director on the National Board of Directors.

The surgery called for an incision to be made in his pubic region. The doctor then pulled out the cancerous testicle. After the surgery, Paul had another week of tests, which included an ultrasound on the remaining testicle. During this period, between 40-45 brothers went to his house to see how he was doing. They asked questions about the nature of testicular cancer and what to look for. Paul remembers that **William M. McLaughlin, ’02**, said to him, “Once a SigEp, always a SigEp. We look forward to having you back next year.” For Paul this act of Brotherly Love solidified his decision to be a SigEp. Paul would later replace Will on the National Board of Directors after his tragic death.

No Need for Chemo?

After the surgery, Paul was set to have a portocath inserted into his chest. This device has an opening just under the skin. It allows the chemotherapy to be injected into the body. This procedure was set to begin at 9:00 a.m. At 9:45,

Paul’s oncologist came into the room to prevent the procedure. She had finally spoken to the most recognized specialist on testicular cancer, Dr. Lawrence Einhorn, Lance Armstrong’s oncologist. He advised that due to Paul’s young age, there was a possibility his immune system would destroy the remaining cancer in his body. If that were true, there would be no need for chemo. There would be no need to leave school for the entire academic year.

It turns out that Paul’s immune system did destroy the cancer. Two weeks after the surgery, his blood markers dropped. In January, he was back in school and back in SigEp. Paul acted quickly and because of that he is alive. So what caused the lumps in his chest? High levels of the hormone Human Chorionic Gonadotropin (HCG) were found in his blood. The HCG may have led to increased levels of estrogen and progesterone, causing the lumps.

Readers of the *Journal* will recall the story of **Cory J. Schumacher, Minnesota ’00** in the winter issue. Yes, Cory was in the same chapter as Paul. In

the time line of events, Paul had his battle with cancer in the fall of Cory’s senior year. It was not until Cory graduated that he discovered the lumps on his testicles.

Like Cory, Paul has counseled other men about their testicles. Their advice: don’t wait, see a doctor.

Paul went on

to graduate on time, and along the way, he was President of the chapter. Today his blood markers are down and in two years his cancer will be considered completely dormant. Currently he is in his first year of dental school at the University of Minnesota. Finally, Brother Peterson pointed out that SigEp’s testicular cancer shower hangers have helped raise awareness within his chapter. This article hopes to raise awareness for all SigEps.

“You must first be a friend to yourself before you can be a friend to anyone else.”

— Hecato

Balanced Man Scholarship

SHARING CHAPTER BEST PRACTICES

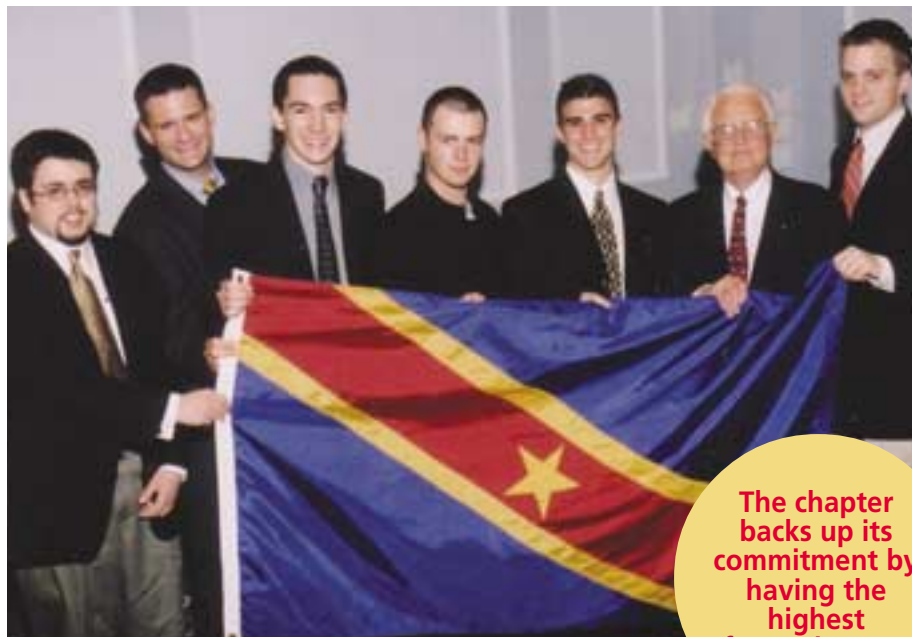

Virginia Alpha flexes academic muscle with BMS

BY JOHN A. SCHUYLER,
Western Michigan '00

Every fall at the University of Richmond, the Virginia Alpha Chapter hosts its Balanced Man Scholarship (BMS). The chapter recognizes not only outstanding freshmen with three scholarships, it also recognizes brothers for their achievements in pursuit of the Balanced Man Ideal. This sends a clear message to anyone who attends the event—Sigma Phi Epsilon is serious about the development of a Sound Mind and a Sound Body.

In late November in the basement of the Tyler Hanes Commons, 25 BMS finalists and 40 brothers, alumni, and faculty members gathered for the banquet. After 30 minutes of socializing, the banquet guests were treated to a video presentation on the chapter and its accomplishments. Then Chapter President **Martin A. Hewett, '04**, and Vice President of Development **Brian D. Onufrychuk, '04**, talked about the scholarship, and Faculty Fellow and Assistant Professor of Public Policy Dr. **Rick Mayes, Richmond '95**, talked about faculty perceptions surrounding fraternities and their role in academe.

Fletcher Stiers, Jr., '48, spoke about his experiences with Sigma Phi Epsilon over the past 60 years, and then handed out 21 scholarships to chapter brothers. Awards to current members highlighted academic achievement and included recognition for highest and most improved GPA. These recipients represented the Balanced Man Ideal at work. There were 12 SigEps who had a 3.7 GPA or higher, and they each received a scholarship for their performance in the classroom. At many chapters across the nation, current member awards are granted to members by

Left to right: Martin A. Hewett, '04, E. Scott Thompson II, Southern Mississippi '99, second place winner Matt Giles '07, BMS winner Valentin Il'Chuck, third place winner Tim Baird, Aaron J. Christoff, Loyola '03, and Fletcher Stiers, Jr., '48.

the Standards Board, or voted upon by the chapter as a whole, based upon the development of a Sound Mind and Sound Body. Academic achievement is one facet of the award, equal with physical fitness.

Balanced Man Scholarship Chairmen **Michael E. Kicak, '06**, and **Braxton T. Bragg, '06**, then presented certificates to the finalists for the BMS. Three freshmen were recognized for their commitment to the Balanced Man Ideal. **Tim Baird, '07**, was involved with Americorp in high school, was the Vice President of the National Honor Society, and on the all-state soccer and track teams. Matt Giles was involved in the Key Club and performed jazz in Carnegie Hall. He played tennis and ran track as well.

Valentine Il'Chuck won the all Norwegian Music Festival before coming to college in the United States. He was an instructor for mountain biking, mountain climbing and white water kayaking.

Sound Body is Key

Virginia Alpha's commitment to the Balanced Man Ideal doesn't stop with the BMS banquet; the chapter backs it up through chapter programs. For Sound Body, the chapter routinely has basketball and broomball competitions. Once a year they organize a hiking trip in the Shenandoah Mountains. Several SigEps compete in varsity and club athletics including football, baseball, track, soccer and crew. Academic achievement is one result of Virginia Alpha's pursuit of the Balanced Man Ideal. SigEp has maintained the highest GPA among fraternities every semester since its re-establishment on campus in the Spring of 2001, and has been in the Phi Beta Kappa Wheelhouse every one of those semesters. In the Spring of 2003, the chapter posted a 3.29 grade point average. It was above the all-campus average of a 3.19, and one-third of the chapter's 90 men had a 3.5 GPA or higher.

SUNY-Fredonia Raises Money for BMS

The New York Iota SigEps have an annual fundraiser where they deliver a Christmas tree to the Boys and Girls Club of Western New York. This event, in its fourth year, has helped the chapter raise funds for the Boys and Girls Club and for its Balanced Man Scholarship.

Many chapters fund the scholarship award out of their own budget, which does not help them plan for the future. By donating the money to the New York Iota Chapter fund with the Sigma Phi Epsilon Educational Foundation, the chapter is able to use a portion to fund part of the award. In 2003, New York Iota added \$1,500 to its chapter fund. As more money is invested, the yield on the fund increases.

Your Foundation... building world leaders

Every year Chuck, Britt and Susan toil away for hours putting together the annual list of donors. Fortunately, each year the task gets harder. The list is longer; the amounts more staggering. That list fuels the Fraternity.

Pays for the programs and helps our young Brothers become better people.

But we already know that the list isn't perfect.

Not included are those hundreds of Brothers who have already decided to include SigEp in their estates. That's a hard thing for most of us to deal with. But it's the truth and always a surprise. Totally out of the blue we'll find out that the Foundation has inherited a mobile home, an office building, or enough cash to establish a scholarship fund that will live forever. Those are strange days when those gifts arrive. Wonderful because we're suddenly able to fund a program that might have been struggling; sad because we were never able to say thank you to a Brother who obviously loved his Fraternity.

To those secret donors who are quietly reading this article, thank you.

Also not included are those donors who contribute funds directly to their local chapter. Many times those donations are for "bricks and sticks" to refurbish a study room, paint and plaster, finally replace the carpet, or build a new chapter house. Without them, many of our

residential facilities would be in disrepair and not representative of America's number one fraternity. And sadly, although there are bills pending in Congress that might ultimately change the policy, today's IRS regulations unfortunately deem these building donations as non-deductible.

For those looking for deductible donations directed to their specific chapter, the Foundation has already developed restricted accounts for each chapter that qualify under current regulations. Funds donated to these accounts can only be used for your chapter under guidelines established by you and your local Alumni & Volunteer Corporation. Quite a few chapters have discovered that the investment return established by the Foundation and the paperwork responsibility undertaken by the Foundation to maintain these accounts are valuable reasons to set up these chapter funds with the Foundation as the administrator.

To those local donors who build the buildings or build a local chapter fund, thank you.

And lastly, we realize that the list doesn't begin to acknowledge the hundreds of volunteers who day in and day out contribute blood, sweat, and tears to keep SigEp on the move. Both cash and commitment are needed to energize the SigEp Experience. And yes, we have a great staff. Yes, we have raised a significant endowment. Neither, however, would mean anything without the commitment of time that's volunteered by you.

To those who are able to donate time, thank you.

Until (and unless) the day comes that we start doubling our staff, our ability to track and acknowledge all of the "other" contributors to SigEp will be limited. What we can do, however, is to be certain that we operate the best Foundation we can within the resources that are available.

**Thank
you**

THE SIGMA PHI EPSILON EDUCATIONAL FOUNDATION

Since becoming Chairman two years ago, I have tried to emphasize that this is “your” Foundation. This isn’t a one-man operation, or a 16-man operation. This is a Foundation whose sole purpose is to fund the programs that you believe in. Our job is to raise money, invest and protect that money, and then to put that money to work in programs that will benefit our Fraternity.

Just like you, we are volunteers who strongly believe in the purpose and progress of Sigma Phi Epsilon. And just like you, we have strong ties to local chapters and strong beliefs that local volunteers and chapters are the key to our future.

About half of the Foundation’s annual expenditure is controlled by restricted funds for local chapters or scholarship programs that are governed by agreements established with the original donors. The Foundations job is to administer these funds, deliver the guaranteed return on investment, and confirm that the funds are distributed in accordance with the agreement.

The balance of the Foundation’s expenditure is in response to requests from the Fraternity. Each year the Fraternity develops an annual budget and Foundation Grant Application. And each year, the Foundation Trustees meet with the Executive Director and the Grand President to review the application and determine what we can fund. All of our national resource allocation is based on these requests from the Fraternity and the Fraternity’s decision regarding priority programs.

Some of our ability to fund a program is limited by IRS regulations that dictate the type of expenses that qualify for tax-deductible donations. And of course, some of our funding is limited by the dollars that we have available.

And that gets us back to you.

With the transition in the US economy and the strengthening of the stock market, this year

**This is a
Foundation
whose sole
purpose is to
fund the
programs
that you
believe in.
Our job is to
raise money,
invest and
protect that
money, and
then to put
that money
to work in
programs
that will
benefit our
Fraternity.**

finds the Foundation with additional resources and the ability to increase our funding for the coming year. That means that more undergraduates will be able to attend New Member Camps, more undergraduates will go to the Carlson Leadership Academies, more will go to the Ruck Leadership Institute, the Quest to Greece, and next year’s Conclave. But the demand keeps growing. And the financial needs are staggering.

Selfishly we hope that you too have enjoyed the

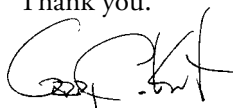

resurgence in the economy. And if you have, we hope that you’ll consider sharing some of that growth with your Fraternity.

It is, after all, your Foundation.

And whether you donate your cash...or commit your time...it needs both.

And it needs you.

Thank you.

Garry C. Kief
*Chairman, Sigma Phi Epsilon
Educational Foundation*

Measure of a year 2003

This issue of *The Journal* includes an expression of appreciation to the alumni, parents, and friends of Sigma Phi Epsilon who believe in the Balanced Man Ideal, building a Sound Mind in a Sound Body, as our chapters are “Building Balanced Leaders for the World’s Communities.”

For the Educational Foundation, the measure of the year 2003 is developed with each contribution made to support Sigma Phi Epsilon’s scholarship and leadership programs at both the national and local chapter level.

Whether it is the 197 members of the Board of Governors who give at least \$1,000, the parents of new SigEps who give \$25 in honor of

their son’s membership, or a retired alumnus who gives \$10 while meeting rising medical and prescription drug costs and assisted living expenses, each of these is a significant contribution to our measure of success.

Truly, we cannot measure the success of scholarship and leadership programs until the young men in our chapters take their place as leaders in the community, in our nation, in the world over the next 10-15-20 years. But, all of us, SigEps who make the investment, truly believe that the SigEp experience of the Balanced Man is a wonderful compass for life that provides our undergraduates every opportunity for success.

So...how did we do in 2003?

**4,501 Alumni, parents and
friends contributed a total of
\$1,244,002**

This made possible support for scholarship and leadership programs totaling \$776,861 (62 percent of contributions). These programs benefited 4,491 undergraduates who directly participated, plus an additional 9,000 who participate in the undergraduate experience in their chapters, benefiting from the Balanced Man initiatives.

To accomplish this the Foundation spent:

- \$82,626 in direct fund raising costs (seven percent)
- \$54,741 in travel and communication costs (four percent)
- \$50,098 in office operations (four percent)
- \$279,676 for personnel and program administration (22 percent)

In addition to contributions, the Foundation’s investments contributed \$1,533,259 to Fund Balances. Total assets are \$11,440,346.

Sigma Phi Epsilon has big opportunities ahead as the Balanced Man Ideal matures, the Quest to Greece and the Ruck Leadership Institute develop and expand, and the Residential Learning Community becomes the standard for all chapters.

To make all of this possible the Educational Foundation has set a goal to increase the participation of alumni, parents, and friends to provide a total of

\$1,021,569 in funding of scholarship and leadership programs for 2004.

The measure of success for 2004 will be the participation of alumni, parents, and friends of Sigma Phi Epsilon who join in the work to *Build Balanced Leaders for the World’s Communities* with the Balanced Men of Sigma Phi Epsilon.

**“If a man is proud
of his wealth, he
should not be
praised until it is
known how he
employs it.”**

— Socrates

**Thank
you**

THE SIGMA PHI EPSILON EDUCATIONAL FOUNDATION

Matching Gifts are like free money!

*But we know money doesn't grow on trees and
there is no such thing as a free lunch!*

So, what is the hitch?

There is no hitch.

A matching gift is a way to make your gift even more powerful for the work of the Sigma Phi Epsilon Educational Foundation.

When you are ready to make a gift to the Sigma Phi Epsilon Educational Foundation contact your human resources department and ask for the companies matching

gift form. You fill out your part (very brief) and send it to the Foundation along with your gift.

The Foundation completes its part of the form and sends it to your company along with the Internal Revenue Service confirmation that the Foundation is a 501(c)(3) public foundation. Normally within 90 days, your company will send a

check to the Foundation that matches your gift. The matching gift is added to your giving record with the Educational Foundation.

Companies that have recently made a matching gift to the Sigma Phi Epsilon Educational Foundation are listed below. If your company is not listed it may mean that no one from the company has sent in a matching gift form.

Aegon Transamerica Foundation
Altria Employee Involvement Programs
Andrews McMeel Universal Foundation

Wiley, Rein & Fielding, LLP

The United Way and the Sigma Phi Epsilon Educational Foundation

Many Sigma Phi Epsilon alumni support the United Way and most United Way programs have an open door policy that means donors can direct gifts to a public 501(c)(3) charity of their choice. The Sigma Phi Epsilon

Educational Foundation qualifies for United Way directed gifts. If you are interested you can call your United Way office to see if they will direct a gift to the Educational Foundation.

HONOR ROLL OF GIVING

The Honor Roll of Giving recognizes the many generous alumni and friends who have invested \$5,000 or more in the Sigma Phi Epsilon Educational Foundation over the course of their lifetime. Our thanks to the Brothers and friends, living and departed, who make up the **Honor Roll of Giving**. The return on their investment is *"Building Balanced Leaders for the World's Communities."*

What is a Governor?

The **Sigma Phi Epsilon Educational Foundation Board of Governors** makes great things happen. They are among Sigma Phi Epsilon's most steadfast and loyal donors, making a yearly commitment to the Annual Fund which provides resources for all chapters. When their gifts are combined with the other gifts from the donor family, the Foundation is able to provide the much needed support to the Fraternity to make educational programs such as the Ruck Leadership Institute, the New Member Camps, the Balanced Man Quest to Greece, and a host of scholarship programs possible. Governors are regularly called upon to provide insight to the Foundation's staff and trustees, and help identify new Governors to help in SigEp's efforts. Our hat is off and our thanks extended to these valuable donors.

BOARD OF GOVERNORS

I look forward
to attending the 2004
Balanced Man Quest
to Greece in June.
This would not be
possible without your
gift in 2003.

Thank you

What interests women? Tri-Delta staff explains

In the fall semester, chapters in the Dallas-Ft. Worth area met at the Delta Delta Delta Headquarters. Representatives from Southern Methodist University, Texas Christian University, and the University of Texas-Arlington spent the afternoon touring the executive offices. Afterwards, they met with Crystal Robbins, Chapter Services Coordinator. Crystal led a discussion about "Building Better Sorority Relations" and "Programming Ideas of Interest to Women."

The undergraduates left with several ideas to implement on their campus. According to chapter president **D. Justin Massimo, Southern Methodist '04**, "We began a Sorority of the Month Dinner. Our executive board has dinner with the executive board of a different sorority each month. It is a great way to share ideas and plan events."

Crystal Robbins meets with SMU, TCU and UTA SigEps

Tour de Touchdown:

Wisconsin Badgers Bike 350 Miles for Children's Hospital

In the brisk month of November, over 60 SigEps braved the elements and raised over \$7,600 for the University of Madison Children's Hospital. They did it by biking 350 miles from Madison, Wisconsin, to Minneapolis, Minnesota, for the Badgers-Gophers game. For the past nine years, Wisconsin Beta has biked the game ball to a different Big 10 campus days before the football game. This philanthropy, known as the Tour de Touchdown, has grown in popularity to become a staple event for the school.

This year, the event was organized by **Robert L. Wilson, '03**, **Adam J. Saraceno, '05**, **John C. Howald, '05**, and **Toby C. Zutz, '06**. A kick-off event and raffle were held at the chapter house on the afternoon the riders set off. Mascot Bucky the Badger and several children from the hospital attended. Brothers rode in a van while the lone biker carried the football. At

regular intervals, the rider switched with another brother.

All the money raised helps improve the environment in the hospital for the children. Half of the patients are long term, and the hospital has a wish list of items from lap-top computers to DVD players for patients' rooms. When asked what it is like biking in the cold, snow, and rain, Chapter President **Paul T. Hohag, '04**, said, "As soon as you see the faces of the kids, you're like, 'that's why we're doing this...'"

Northwestern and Y.O.U.

Instead of pouring its time and money into one big philanthropy, SigEps volunteer weekly through Youth Organization Umbrella (Y.O.U.) at Chute Middle School in Evanston, Illinois. The program is a social service agency that provides guidance, support, and advocacy for Evanston youth, helping them make the transition from childhood to adulthood. At the Chute MS site, the volunteers help the children with their homework for an hour or so, and then play with them for the remainder of the two hours. The basketball, softball, arts, crafts, pool, ping pong, foosball, or video games are what the kids really look forward to.

One sixth grader finished his work early one day and subsequently begged and pleaded to go to play basketball early. Negotiations were going nowhere until someone proposed that he show off his dance moves and do "The Robot" for 30 seconds. The little boy accepted the offer and supplied the whole room with 30 seconds of hilarious entertainment. It proved that philanthropy doesn't need to be a chore—it benefits those who serve as well as those who are served.

Submitted by John Benjamin Woo, '06.

Dartmouth hosts Gen. Clark

In the weeks leading up to the New Hampshire primaries, SigEp hosted Democratic presidential hopeful and retired four-star general, Wesley Clark. As part of the pancake breakfast, Clark flipped pancakes and spoke at the chapter house. He then answered questions on religion and military strength.

Dartmouth brothers with General Wesley Clark

Members of the chapter were seen on the NBC Nightly News hoisting a banner that read, "SigEp Welcomes Wesley Clark." Two SigEps worked on his campaign and suggested the chapter house as a place to host the breakfast.

"It was an incredible honor and privilege to host General Wesley Clark at the chapter house for a pancake

breakfast. Even though the event was at 8 a.m. on a Friday morning, we were able to draw a crowd of over 100 students, administrators and community members. General Clark held individual conversations with many of our brothers," said **Evan M. Lapinsky, '04**. "As chapter president, I was able to interact with the General during the course of his nearly one-hour visit to the house. He is an incredibly intelligent and genuine man who was comfortable talking about everything from physics to philosophy. Our chapter really came together to make sure that all the details were in place to ensure his visit was successful. It was great to see SigEp on the front page of the *Boston Globe*."

"Clark for President" signs line walkway to chapter house

Above, from left to right: Brothers Morgan Brown, '05, Matt Bartek, '05, Mark Bubriski, '02, Evan Lapinsky, '04 and General Clark.

Coaching the Rolla Chiefs—Future SigEps

This year the chapter sponsored and coached a 5th and 6th grade football team—the Rolla Chiefs. After a well-played season, the team had a 3-2-1 record, and in every game, they sported the SigEp logo on their sleeves. Members from the chapter raised over \$2,000 at the concession stands for each game, and the money went back into the league.

Making a big difference on a small scale:

SigEp volunteers raised over \$2,000 each game for the PeeWee League by volunteering to staff concessions.

Southern California Chapters Compete, Building Sound Bodies

This past November, the California Beta Alpha Chapter at the University of California-Irvine held its second annual Sports Day at the campus recreation center. The event invites chapters from Southern California to the campus for a day of friendly competition in several events. Teams were fielded by the California Gamma Chapter at the University of California-Santa Barbara, California Zeta Chapter at Cal State-Long Beach, California Mu Chapter at Cal Poly-Pomona, California Upsilon Chapter at Cal State-San Bernardino, California Psi Chapter at Pepperdine University, and California Beta Beta Chapter at the University of San Diego. In all, 150 brothers participated in seven-on-seven flag football and three-on-three basketball. The tug of war was cancelled due to rain.

For the second consecutive year, Cal State-Long Beach took first place in flag football, and University of California-Irvine took first place in basketball. To raise awareness of testicular cancer, Sports Day raised \$1,000 for the Lance Armstrong Foundation.

California-Irvine chapter president Bryce G. Gilleland, '06, and Sports Day organizer Toyomitsu C. Kimura, '05

California-Irvine going up against Pepperdine

Order of Omega and Ohio State's haunted house

The chapter had four brothers inducted into the Order of Omega—**Bradley D. Griffith, '04, Christopher A. Alvarez-Breckenridge, '06, Matthew R. Dornauer, '04, and Stephen B. Keen, '06.** There were 40 applicants from the different fraternities and sororities to the prestigious honor society, and only 20 were selected. Brother **Kenneth R. Wilkins, '04,** is the president, and Brothers Dornauer and Keen are Vice Presidents of the organization. The Order of Omega is a national honorary which strives to honor Greek men and women who maintain high academic standards, participate in service, and are active in campus leadership positions.

During Halloween, SigEp and the ladies of Pi Beta Phi turned the chapter house into a haunted house for children living in the university area. Neighborhood families were invited to this special holiday event. After children and parents had their scares and candy in the decorated house, they listened to scary stories in the formal room of the chapter house.

Just Around the Corner—SigEp Number 250,000

From its humble birth at Richmond College in 1901, Sigma Phi Epsilon has grown to be the largest fraternity in the country. By the end of the academic year 2004, SigEp will have over 250,000 total members ranking third among all fraternities.

Number 248,000, **Brett A. Emaus, Grand Valley State '06,** is from Northville, Michigan, and majors in computer science. When asked why he joined SigEp, Brett said, "They really made me feel like I belonged. It is an honor to be a part of something that has grown to such a great extent."

Kieran Locke, Yale '06, number 249,000, is from St. Croix in the U.S. Virgin Islands. He double majors in economics and international studies. Kieran joined SigEp after meeting the members of

the chapter and witnessing the different attitude with which they approached fraternal life. He is also a strong believer in the Balanced Man Ideal. "I feel flattered being the 249,000 member of SigEp. I know that I follow in a long line of successful SigEps before me, and I hope to carry on the proud traditions," he said when he learned of this new recognition.

"By believing passionately in something which still does not exist, we create it."

— Nikos Kazantzakis

YouthAIDS gala unveils SigEp partnership effort

At the Grand Chapter Conclave in San Antonio, Texas, Sigma Phi Epsilon voted to partner with YouthAIDS to educate and raise awareness among college students about the global HIV/AIDS epidemic. With statistics showing more than 12 million youths ages 15-24 living with AIDS around the world, SigEp is joining this important battle.

YouthAIDS, a global HIV/AIDS initiative, held its second annual Benefit Gala in New York City in October, 2003. The evening was hosted by actress and YouthAIDS Global Ambassador Ashley Judd.

Gwenn Barringer and Shawn Decker with the Christopher Newport SigEps. Shawn is infected with HIV, and the two talk about their relationship together.

Sigma Phi Epsilon was announced as the newest global partner of YouthAIDS. Educational Foundation Chairman **Garry C. Kief, Southern California '70**, and Sigma Phi Epsilon Executive Director **Craig D. Templeton, Kansas '81**, attended the event along with several undergraduates and alumni.

During the evening, **Adam B. Hallihan, Illinois '05**, recorded a public service announcement for Sigma Phi Epsilon asking the Fraternity to join the fight against HIV/AIDS. Adam educates SigEp about HIV/AIDS and encourages our chapters to raise money needed for this deadly disease.

For more information, go to
www.youthaids.org/sigep

YouthAIDS Global Ambassador Ashley Judd

Following the announcement of the partnership, Pepperdine SigEps held their annual "Queen of the Hearts" event to benefit YouthAIDS. The Christopher Newport SigEps attended a presentation given by Shawn Decker and Gwenn Barringer, a young couple that tells a story about living with HIV/AIDS. Shawn is infected with AIDS, while Gwenn is not. The presentation challenged college students to open their minds and confront images of people infected and affected by HIV.

Throughout the spring semester, SigEp chapters will host numerous events to educate their campuses about HIV/AIDS and raise money for YouthAIDS.

Muhlenberg's Rotary Ambassador to England

Pennsylvania Iota's Brother **Michael J. Hogentogler, '04**, was named a 2004-2005 Rotary Foundation Ambassadorial Scholar. He will pursue a master's degree in finance at the University of Manchester, in Manchester, England, and the scholarship will pay for his year of graduate studies. Michael will depart for England in September. The selection process for the scholarship included a 45 minute interview by the Rotary Foundation Scholarship Committee.

With the help of professors, Brother Hogentogler had several mock interviews and was chosen out of 12 finalists in Eastern Pennsylvania. He is currently double majoring in business finance and communications and has a 3.94 GPA. An avid sports fan, he officiates high school games and is a student orientation leader on campus. Michael credits his parent for inspiring him to pursue this opportunity. "They told me, 'if you don't take risks, you won't get any rewards,'" he said.

UW-Platteville SigEps Learn from Buddhists

During Wisconsin Theta chapter's fall retreat, SigEps gathered to set goals for their chapter and to further their pursuit of the Balanced Man Ideal. Several members of the Red Diamond Buddhists in Madison, Wisconsin, showed the chapter meditation exercises. The exercises help improve concentration and breathing. Later that evening, the chapter had a dance instructor work with them on swing dancing. Each member brought a date to the event.

Case Western supplies Holiday Santa surprise

The Ohio Sigma Chapter at Case Western Reserve sponsored a surprise visit from Santa Claus to the first graders at Albion Elementary School. The event was organized by

Sean Dee, Case Western Reserve '06, **Kent Seaburn, Case Western Reserve '06**, and **Alexander Figueroa, Case Western Reserve '06**. The three also donned elf costumes and assisted Santa Claus, aka **Adam R. Salisbury, Evansville '98**. In the previous week, the first graders wrote letters to Santa and were quite surprised when he showed up with letters answering theirs. In addition, he read a Christmas story to the class, making it a memorable event for everyone.

Submitted by David J. Buckmaster '06.

Our Very Own Frat Boys

Chapters that do not live up to the ideals of Sigma Phi Epsilon bring dishonor and disgrace to our name. The Journal reports these stories to inform its readers and to show that actions have consequences.

West Virginia

The chapter reported a fire in its chapter house due to a fireworks prank by one of the members, who launched a lit firecracker into the room of a sleeping member. It caused a fire and

the sleeping member sustained numerous injuries leaping from the second story window to the ground. A separate incident involves allegations of hazing by the chapter. The Headquarters staff is working with the undergraduates and local volunteers to determine the future of this chapter.

George Washington

Chapter was found to have kegs at an off-campus function with its new members. The alcohol was purchased by

an alumnus with chapter funds. The chapter was issued a \$2,500 surcharge for providing a community source of alcohol.

George Mason

Chapter was found to have kegs at an off-campus function. The alcohol was purchased with chapter funds. The chapter was issued a \$1,500 surcharge for providing a community source of alcohol.

SigEps in Prestigious Honorary Gamma Sigma Alpha

The following brothers became members of the Gamma Sigma Alpha National Honor Society in the 2002-2003 academic year. Membership in this National Greek Honor Society is based on both grade point average and membership within a fraternity or sorority. Only students with a cumulative grade point average of 3.5 or above (on a 4.0 scale) at the start of their junior year or a grade point average of 3.5 or higher in any semester during their junior or senior year are eligible. Gamma Sigma Alpha was founded at the University of Southern California in 1989 and has over 150 chapters across the country.

Mighty Penn Turns 100

To celebrate its first 100 years at Penn, the chapter is planning three events in 2004. The first event will take place during the annual gathering at the Penn Club in New York City on April 1, 2004. The two remaining events will be held at the chapter house in Philadelphia, one on the University's Alumni Day, May 15, and the second at Penn Homecoming, October 16. For more information contact Alumni & Volunteer Corporation President **Brett R. Danko, Penn '90** via email danko1@mindspring.com or by phone at (609) 912-1899.

Submit Stories to The Journal

The Journal of Sigma Phi Epsilon accepts stories on a year-round basis and is a reflection of the SigEp experience-your experience. When submitting a story, remember to give a historical account of what is happening, but also make your submission an interesting read. When submitting a picture, try to show the subject's face. The subject should be doing something, instead of posing for the camera. Challenge yourself to submit pictures that SigEps have not seen before. Send all information to: **The Journal, P.O. Box 1901, Richmond, Virginia 23218-1901.**

Top: Regional Director Dennis Kaps welcomes the participants to the workshop. Above: Teambuilding activities are a vital part of the curriculum.

Iowa, Minnesota Chapters Meet for Recruitment Summit

Before the start of the spring semester, over 100 undergraduates met at Drake University to talk about recruitment. The brothers came from Iowa State University, the University of Iowa, the University of Northern Iowa, Drake University, and the University of Minnesota. Several alumni were in attendance, along with members of the Headquarters staff. The focus of the summit was to help undergraduates articulate the SigEp experience, as well as to share ideas on recruiting. Participants discussed the pros and cons of formal recruitment and how to recruit year-round. After the event ended, the Drake SigEps organized a Sound Body tournament at the campus recreation center for all of the chapters. Participants left the half-day retreat ready to articulate the Balanced Man Ideal to potential members. According to **Timothy J. Tesar, Drake '05**, "It is so easy to talk about yourself. My biggest take-away was learning how to stop talking and listen to a potential recruit. If you do that, you will hear the reasons he wants to join SigEp."

Then, you talk about how the Fraternity meets his expectations."

Brothers from different chapters work on honing their recruitment skills.

Bringing the Cat to life Reading (Brother) Dr. Seuss to first graders

Each month, the chapter reads Dr. Seuss books to the first grade class at Saint Vincent Ferrer School. This idea was inspired by the movie version of "The Cat in the Hat." With his face painted to resemble a cat, Chapter President **Luca Bizzotto, '05**, commented, "We do this so the kids would read the book before they watch the movie."

Kathy Savage, the teaching assistant said, "I wouldn't think fraternity men would want to come in to schools and read to kids. But I have to say it seemed like they were having as much fun as the class, if not more. We already roped them into coming back and going to another class."

Reading books is not the only way SigEp is working with the community. They raise money every year for the American Cancer Association and perform street clean-ups in front of Pope John Paul II High School. In addition, brothers are also asked to attend the service of a religious group outside their own beliefs, go to a school play or art exhibition around town, and participate in extra-curricular activities at least once per month.

Western Kentucky Boosts charity book sale

To assist in the fourth annual Famous-Barr Used Book Sale, SigEp collected used books from the community. Chapter President **Robert "Van" Shepard, '06**, said that the chapter spent the past month collecting books as a way to emphasize service by the chapter. They began with the other fraternities and sororities on campus, and then went out into the Bowling Green community. In the end, the chapter supplied over 8,000 books ranging from children's books to cookbooks.

Brothers meet on Web for rugby tour of Cuba

The Thunderbird Old Boys, alumni rugby players from the American Graduate School of International Management, began planning a rugby tour of Cuba over a year ago. **Charles A. Hamilton, Montana '88**, President of the Thunderbird Alumni Rugby Association, arranged to have the tour coincide with the school's non-credit alumni traveling course, led by Professor of Business Spanish Carmen Vega-Carney and an old hand at all things Cuban.

The touring side was coming up a little short of players, so Chuck posted the travel opportunity to the SigEp talk group. **Richard M. Diaz, Colorado School of Mines '05**, answered the call and joined the group. He was a welcome addition and a fine example of Sigma Phi Epsilon. He had no prior knowledge of Chuck or the group, but still threw in his trust with the bunch. What follows is a brief description of their trip.

Friday, August 29, 2003

Once in Cuba, we were escorted to the older portion of the airport for customs. The line at customs was long and the agents a bit menacing, but once through, we were off to the tour bus (safe and clean) and on to Havana. The weather was nice in Havana, albeit humid. The Hotel Telegrafo was nicer than the hotel in Cancun, to our surprise. After unpacking, a small group of us took a jog around the seawall of the city. We received many stares from the locals. But it was a great way to get acquainted with our surroundings. It is a beautiful, run-down city.

Saturday, August 30, 2003

Woke up groggy but not feeling as bad as I thought I would. A group of us went for a quick walk into Old Havana for shopping at Mercado de Arte y de Artesanía de la Catedral, and a bite to eat.

The weather was sunny and warm and the beach was filled with locals. They appeared to be fairly well off, as Cubans go. We dropped our gear on the sand and went in for a cool dip and body surfing. Nearby was an elevated open air "cabaña" where

they were serving seafood (lobster tails, shrimp, etc.).

Sunday, August 31, 2003

Around 10:00 a.m., we arrived and started to get ready. The pitch was a local playing field and appeared in decent condition. Crowds were gathering, including approximately 30 police/militia personnel.

Once we were dressed, we took the field and began to stretch and prepare for the match. It was unbelievably hot and humid. Jerseys were wet after only a few minutes of warming up. This would prove to be challenging for a lot of us. The neat thing about the match was the pomp and circumstance surrounding it. Both teams lined up before the match, carrying each of its respective country's flags, and were introduced individually over a loud speaker—not your typical start to a match. The Sports Minister of the province also welcomed us and gave us a written "proclamation" that commemorated the match.

We were a bit rusty and the final score was a bit lopsided, but we came together in the second half and put some points on the board. Indios Caribe is a pretty decent team, and they moved the ball around well. Overall, we did the best we could given the circumstances. Yet it is always disappointing to lose. Final score: 39-17.

Monday, September 1, 2003

Today was official educational tour day. Danny, our tour guide, was going to show us the Cathedral de le Habana, La Plaza Revolucion, Memorial de Jose Marti, and other tourist spots. It was to be mostly a walking tour. Havana has tremendous old

Charles A. Hamilton, Montana '88 and Richard M. Diaz, Colorado School of Mines '05

world charm, and once the political system becomes more western-style, it will be a great tourist destination. For now, Cuba is a developing third-world country with a totalitarian, communist government.

Tuesday, September 2, 2003

The second match of the tour was scheduled for 5:00 p.m. that afternoon in the western part of the city at an old, run-down stadium.

At 3:00 p.m., we boarded the bus for the next match, stopping along the way at José Marti Plaza for team photos. Although still humid and warm, the weather for this match was much better than on Sunday. We still drank many gallons of water.

We played a better match, but it was not reflected in the final score. In the second half, the rain started, making the rugby ball quite difficult to handle. In the end, injuries and a lack of cohesion prevented us from victory. Still great fun! Final score: 45-0 Giralddillos.

The post party was at a restaurant/bar atop the old U.S. Embassy in Old Havana. Great views of the harbor and the opposing team seemed nice. We even had a few join us the next day at the beach. They were thankful for the give-aways we had for them and their families.

Thursday, September 4, 2003

The morning was filled with breakfast and last minute shopping. We said our goodbyes to the people staying on in Cuba and were off to the airport by 12:00 p.m. It was nice to be back in a second-world country, even if it was unbelievably touristy.

Saturday, September 6, 2003

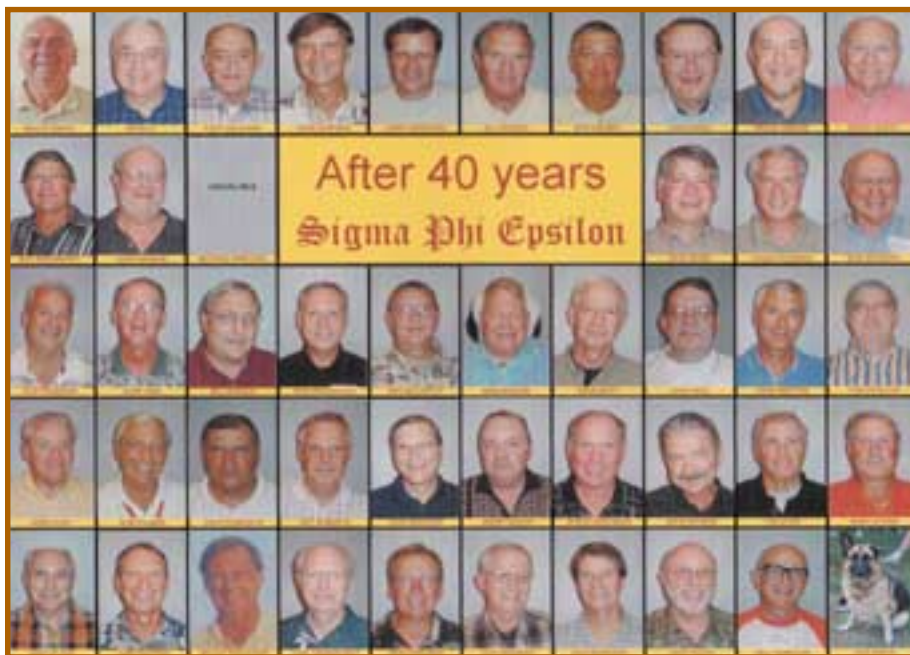

Home Sweet Home!

SigEp Reunions —

Several groups of SigEp alumni gathered to celebrate their graduation year(s) and reported the events to the Journal. Their displays of fraternalism are inspiring. We begin with Iowa State.

Picture This—Iowa State Alumni 40 Years Later

In August, 2003, 45 alumni from the Classes of '62 to '66 returned to the state of Iowa for a weekend of celebration. **Bruce R. Barta, '62**, **Gary E. Sutton, '64**, and **John V. Hanson, '65**, organized the event. Hanson is the past CEO of Winnebago Industries located in Forest City, the site of the reunion. Events from the weekend included a Winnebago plant tour, a paddle boat lake tour, and a steak dinner on Saturday evening. Brother **Michael F. Moehrl, '64**, inspired the group by attending. He was rendered a quadriplegic after falling off a horse. To commemorate the occasion and to show that the bond of brotherhood lasts, they created a composite of the attendees (see below).

Then and now — Left: ESPN Commentator Gary S. Seibel, Syracuse '73. Right: Writer/producer Mike J. Marks, Syracuse '73.

Syracuse Alumni Paint the Original Red Doors

On the weekend of November 21, 2003, 30 SigEps from the class of 1973 gathered in Syracuse, New York, to celebrate their 30th class reunion. Alumni & Volunteer Corporation Treasurer **Douglas Martin, '75**, and **Thomas W. Baker, '73**, planned the reunion. Brothers from as far as California flew in to be a part of the celebration, including **Gary S. Seibel, '73**. Brother Seibel is regularly seen on ESPN as a commentator for bowling and horseracing. Aside from the impressive turnout, what made this particular gathering so special was the impromptu decision by the alumni to paint the doors to the original chapter house red. The undergraduates and the university helped the alumni in their task.

The red door is one of Sigma Phi Epsilon's proudest traditions, and it originated at New York Alpha in the 1920s. It is rumored that during World War I, behind enemy lines, houses with red doors meant that allied forces could seek refuge. From the time of its founding, New York Alpha was a beacon chapter and over many decades their red door was emulated. As the original SigEp house was in the middle of campus, the university purchased it, and the alumni built a new one. Today there are two sets of Red Doors on campus.

'75-'81 Rutgers Reunion

On November 29, 2003, over 50 SigEps and sweethearts from the classes of '75 through '81 held a reunion in the home of Marie and **Ralph A. Petti, '78**, in Basking Ridge, New Jersey. Period music and memorabilia helped kick off a weekend of celebration, football, and remembrances. Brothers and sweethearts visited from as far away as Los Angeles, California, and Seattle, Washington. Among the highlights were a group picture and a slide show created by **Brian M. Wilchek, '79**, and Carol Ross ('78).

The members of the committee that helped organize this event were Brother Petti, **Michael S. Castello, '78**, **Robert E. Berenguer, '79**, and Mary Isaacs Reece ('79). A commemorative gavel was presented to the hosts, and guests told stories of how they spent the past 25 years "growin' up."

In addition, **John S. Witemeyer, '55**, was recognized for his dedication to the New Jersey Beta Chapter and his efforts to keep the Fraternity more closely knit over the years with ski vacations and fishing trips. One invited guest, Joe Bonanno of "Jobonanno and the Godsons of Soul," could not make this event due to the fact that he was rehearsing for performances. Joe performed at the chapter house during the 1970s and has opened for Bruce Springsteen and the E Street Band. He also has a new CD, "Turn up the Heat."

Linking Mission Control to Mars

When NASA communicates with the Mars Exploration Rovers, it utilizes antennas created by **Michael P. Thelen, Loyola Marymount '98**. Brother Thelen works for the Jet Propulsion Laboratory (JPL), which is managed for NASA by the California Institute of Technology. He designed all but one of the antennas used on these historic missions. Named "Spirit and Opportunity," the rovers launched within weeks of one another in June and July. Spirit successfully landed on the surface of Mars early in January and is searching for evidence of a wet history on the planet. As of press time, Opportunity had not yet landed on Mars.

Brother Thelen at the Jet Propulsion Laboratory

When asked to describe the feeling of creating such a vital piece to the historic mission, Mike said, "The feeling is best described by when I go outside, look up into the sky at Mars, and know that my hardware has successfully landed there."

In addition to the Mars explorers, he is working on the Mid Infrared Instrument that will fly on the James Webb Space Telescope. It will be launched in 2011 to replace the Hubble Space telescope. This instrument is

designed to give a more thorough understanding of the origins of the Universe and operates at the extremely cold temperature of 6° Kelvin, or -450° Fahrenheit.

Brother Thelen studied engineering at Loyola Marymount, and in the summer of 1996 he began working part time at the JPL, a job that evolved into a career. He has been involved with science instrument development, ion engines, and interplanetary spacecraft that visited five of the nine planets in the solar system.

Washburn stadium named to honor Yager

An anonymous donor chose to honor **Gary E. Yager, Washburn '76**, by naming the Moore Bowl Football Stadium after him. The Ichabods now play their home games at Yager Stadium at Moore Bowl. The naming rights to the stadium were secured with a \$1 million dollar donation, part of a \$4.3 million dollar renovation. So why did the donor choose Yager? The humble Yager played football for the Ichabods in the early 1970s, earning all-conference honors at running back his senior season. After graduating, he went into the banking business in Topeka, Kansas. For almost 30 years, Brother Yager has been a contributing leader in the community, epitomizing the ideal scholar-athlete. He is currently the vice chairman and director of Western National Bank.

Famed Wall Street Journal Editor Robert L. Bartley, Iowa State '59

Robert Bartley was honored in March, 2000 as one of the 100 Business News Luminaries of the Century, and attended the dinner with his wife, Edith.

He was one of the most influential journalists in American history. President George W. Bush awarded him the Presidential Medal of Freedom award, the highest civilian honor. Over his 40 year career, he won a Pulitzer Prize for editorial writing, a Gerald Loeb Award and a Citation for Excellence from the Overseas Press Club of America. He authored a book on Reagan administration economic policy

titled, "The Seven Fat Years: And How to Do It Again," published in 1992 by the Free Press. **Robert L. Bartley, Iowa State '59**, died on December 10, leaving a legacy.

Brother Bartley joined the Wall Street Journal in 1962. He served as a staff reporter in the Chicago and Philadelphia bureaus before joining the editorial page staff in New York in 1964. He was appointed editor of the editorial page in 1972, editor of the Journal in 1979 and a vice president of Dow Jones & Co. in 1983. He was described by Federal Reserve Chairman Alan Greenspan as, "an articulate and most effective advocate of free markets, indeed freedom generally." Brother Bartley summed up his philosophy as, "free men; free markets."

Brother Bartley was known for taking complex ideas and boiling them down for the reader. His editorials ranged from doubts about President Clinton's character to supporting a constitutional amendment establishing open borders for the United States. During his time as Editor, The Journal became "the mouthpiece of supply-side economics," the tax-cutting ideology that has influenced Republican fiscal policy from Ronald Reagan to George W. Bush. For all of his accomplishments, friends and colleagues described him as optimistic and humble. He was a steadfast believer in America.

Grand President C. Maynard Turner's legacy

David Maynard Turner, Washington

David Maynard Turner, Washington, passed away on January 31, 2004. He was 68 years old. The son of two-time Past Grand President and Order of the Golden Heart Recipient **C. Maynard Turner, Washington '22**, David lived in San Antonio, Texas. At recent Grand Chapter Conclaves, he presented the C. Maynard Turner Award wearing the signature white tuxedo coat worn by his father. In a tribute to his father, at the 1999 Grand Chapter Conclave in Chicago, Brother Turner told the audience that he was not a member of a fraternity in college because there was no Sigma Phi Epsilon chapter on his campus. In his words, "If I could not be a part of Sigma Phi Epsilon in college, I would not be a part of any fraternity." In 1999, the Washington Beta Chapter at the University of Washington performed the Renaissance of

The Sigma Phi Epsilon Educational Foundation Tile Program

How will you be remembered?

Since the last issue of *The Journal*, many Brothers have new engraved — personalized — tiles placed on the Grand Portico of Sigma Phi Epsilon's Zollinger House.

They have honored other Brothers, chapters, and themselves and their Sigma Phi Epsilon experiences, on the beautiful Italian tiles which will last in perpetuity...capturing their sentiments for years to come at the home of Sigma Phi Epsilon.

There are two ways to make your gift for **The Sigma Phi Epsilon Educational Foundation Tile Program.**

(All proceeds help fund leadership programs that benefit all chapters.)

- For a gift of \$150 your personalized tile will be prepared and laid on the Zollinger House portico. You will receive a thank you letter and tax receipt for \$150.

- A custom, framed rendition of your personalized tile is available for an additional \$50, which may be sent to you or the person you are honoring.

Space is limited so order your tile today. The tile plazas of Zollinger House are proudly displayed points of interest on all Zollinger House tours for visitors.

The members of Sigma Phi Epsilon share a rich heritage. **The Sigma Phi Epsilon Educational Foundation Tile Program** is a way for you to invest in the future of our undergraduate Brothers and leave a tangible reminder of your SigEp experience at Zollinger House.
